Investment Objective

The investment objective of the Fund is to seek long-term growth of capital with lower than market volatility by investing primarily in equity and similar securities issued by high quality companies listed on Recognised Markets in countries which are members of the Organisation for Economic Co-operation and Development (“OECD”)

Investment Process

- Investment philosophy: Growth drives returns; quality protects against downside; valuation matters
- Focused “total immersion” bottom-up analysis of selected “high confidence pool” of stocks
- Concentrated global equity long-only strategy with 20-25 high quality growth investments
- Benchmark agnostic, unconstrained portfolio construction; high active share

Manager Commentary

The fund is up 27.28% year-to-date in Sterling terms, underperforming the MSCI World by 122 basis points. 77 basis points of relative performance were lost in December.

Stryker, one of the world's leading medical technology companies, was the top contributor in December; expectations are rising for substantial market share gains driven by the forthcoming launch of its MAKO total knee arthroplasty application for robotic arm-assisted surgery. Nestle, the global food and beverage company, was also a strong performer; consumer staples bounced back in December after weakness in November following the Trump election and a sharp rise in bond yields. ADP, the global provider of Human Capital Management solutions, was another top contributor as a perceived beneficiary of Trump tax reform, higher interest rates and higher wages.

The largest detractors in December were Moody's, Priceline and Yum China. While bond issuance rebounded in H2 2016 following increased M&A activity, sentiment around Moody's has been affected by the potential impact of rising rates on issuance in 2017. Priceline, the world's leading provider of online travel and related services, was pulled down by general weakness in the consumer discretionary sector. Yum China, the pure-play China restaurant business with brands including KFC, Pizza Hut and Taco Bell, was weak in December after initial strength in November following the spin-off from Yum! Brands.

Strong organic revenue growth will help drive low double-digit earnings growth per annum over the next five years from the fund's portfolio of high quality growth companies.
